

K-LOVE serves our community in a way no other station does. It reaches those of us who want a religious and spiritual station with uplifting music, news, and messages. If we lost that choice and the programming my family would have no outlet on the radio that I feel is safe for my whole family to listen to. The station is such a positive and beneficial thing in our lives, and I'm sure many others. They allow a wonderful family message to be heard and a great religious point of view we cannot receive elsewhere. I ask that consideration be made to not change the current rules on LPFM and allow K-LOVE to operate as is. The message they send and the people they touch do not have any other outlet for their values. I would rather have my children listen to wonderful Christian rock songs than the horrible trash that is spewed out on the morning shows. The message that my kids receive is of a better moral content than anything out there. Please allow us to maintain that for ourselves and families.
